

Direct Impact from the Mill Levy Override

- ✓ Lower average class sizes for students
- ✓ Added focus school choices including Visual and Performing Arts (VPA), Science, Technology, Engineering & Math (STEM), International Baccalaureate (IB), Science and Technology, and Pre-Advanced Placement (AP) schools
- ✓ Early Childhood programs expanded to all elementary school sites
- ✓ Increased recruitment and retention of “highly qualified” teachers
- ✓ Increased advanced placement and honors-level courses for high school students
- ✓ Increased bandwidth for District-wide technology network and school computer labs
- ✓ Increased computer technicians for in-classroom technology support
- ✓ Added additional campus supervisors to enhance school safety
