Employee Evaluations

The Evaluation is based on the premise that all employees have a commitment and responsibility to continued improvement in their performance. The purpose of the evaluation is to improve employees' job performance, skill, and expertise through a systematic and constructive evaluation system which:

- Provides an opportunity for the supervisor and the employee to mutually develop performance goals.
- Helps the supervisor in determining areas for improvement and assist in correcting deficiencies.

The immediate supervisor of the employee is the primary evaluator. For school-based staff, when the primary evaluator is not the principal, the supervisor must consult with or inform the principal on all evaluations.
