

Extracurricular Activity Buses/Field Trips/Special Events Transportation

Buses may be used for extracurricular activities insofar as those uses do not interfere with the normal operation of the transportation program. The extent to which buses are used for this purpose and the charges to school groups shall be established by administrative procedures.

Transportation for extracurricular activities should be scheduled so that students' time away from classroom instruction is minimized.

District-owned vehicles shall not be used for travel outside of the state of Colorado. Exceptions to this policy may be granted only upon the prior approval of the superintendent or designee.
