

Use of Safety and Security Technologies

The Board of Education recognizes that maintaining the safety and security of students, staff and district property is best implemented with a multifaceted approach. To the extent that modern electronic technologies such as video surveillance cameras assist in providing another tool to establish and maintain safer environments, the use of electronic technologies is supported by the Board of Education.

The use of electronic technologies shall be in accordance with applicable state and federal laws pertaining to such use. The district also shall comply with applicable law related to maintaining electronic recordings.
