

St. Vrain Valley School District
Board of Education
395 South Pratt Parkway
Longmont, CO 80501

To the Members of the Board and the Community,

I am writing to formally declare my intent to run for election as a member of the St. Vrain Valley School District Board of Education. It is both an honor and a privilege to seek the opportunity to once again serve a district that I deeply respect and believe exemplifies best practices in public education across the state.

I previously served eight years on the Board of Education as an elected representative from Erie, and I continue to carry forward the same passion, commitment, and respect for the role public education plays in shaping the future of our youth. My service was guided by the principle that there is no greater contribution to our community than ensuring all students have access to a strong educational foundation.

I believe the core responsibility of the Board is to establish and safeguard pathways that prepare our students with the knowledge, skills, and character necessary to succeed in tomorrow's world. During my prior tenure, I was especially focused on advancing technology, STEM programs, robotics, and coding. These remain areas of great importance, particularly as artificial intelligence, cybersecurity, and digital literacy increasingly define the skills and opportunities of the future.

My vision is to continue building collaborative relationships with industry partners to provide our students with access to certifications, career pathways, and real-world learning experiences. By connecting classrooms to evolving workforce needs, we not only strengthen academic achievement but also prepare students to thrive as innovators and leaders.

Most importantly, I seek this role with a deep respect for our district's educators, administrators, and community members. While each of us represents a geographic area, we must approach our work with a district-wide perspective, ensuring equity, excellence, and opportunity for all.

I am grateful for the support and trust of this community, and I look forward to contributing my experience, knowledge, and passion for education in service of our students, families, and future.

Respectfully John L Ahrens
